SCENESWAP

Interactive Multi-Branch Party Script Engine & Live Film Set

Document Version: 3.0.0 · Publication Date: October 2026 · Status: Approved & Active

1. EXECUTIVE SUMMARY & VISION

SceneSwap is an interactive entertainment application designed to turn social hangouts, family game nights, creative collectives, and social media content creators into a live, collaborative movie set. By removing the steep setup time, repetitive cards, and passive bystander syndrome of traditional party games, SceneSwap casts real participants directly into gripping, comedic, and high-tension screenplays.

Every game session is structured as an interactive 3-Act or 5-Act cinematic story tailored to player names, custom face avatars, chosen genres, and personal inside jokes. Equipped with a portrait teleprompter, photorealistic scene backdrops, live sound effect blips, and real-time choice voting, SceneSwap delivers a complete social performance experience.

2. PROBLEM STATEMENT & VALUE PROPOSITION

The Core Problems Addressed:

- **Party Game Fatigue:** Standard board games and card decks become predictable after a few plays and lack personalization.
- **Improv Performance Anxiety:** Most social groups love dramatic banter and comedy, but freeze when asked to improvise without a script.
- **Passive Bystanders:** Traditional party games typically allow only 1 or 2 players to act at a time while others wait disengaged.
- **Content Creator Bottlenecks:** Short-form video creators spend hours scripting multi-character sketches for TikTok and Instagram Reels.

The SceneSwap Solution:

- **Personalized Character Casting:** Friends are assigned distinct roles, secret motivations, and dramatic archetypes under their real names.
- **Full Teleprompter Pacing:** Each player reads punchy, customized lines with bracketed acting delivery directions right from the screen.
- **Dynamic Branching Choice Matrix:** At the end of each act, the room votes on 3 divergent plot directions that dynamically reshape the story.
- **Cinematic Studio Quality:** Photorealistic 9:16 scene backdrops and responsive acting sound effects immerse everyone into the film universe.

3. TARGET AUDIENCE & USER PERSONAS

Persona	Description	Primary Need / Goal
The Social Host	Organizes game nights, dinner parties, and hangouts	Zero-friction icebreaker that gets everyone laughing immediately
The Creative Performer	Loves theater, comedy, and expressive roleplay	Smart dialogue and dramatic cliffhangers to showcase personality
The TikTok / Reel Creator	Produces short-form comedic drama and skits	Ready-to-record vertical format with auto-scroll and clean visual stagi
The Remote / Streaming Crew	Plays over video calls, Discord, or live streaming	Live vote matrix where audience and remote friends steer the plot

4. CORE PRODUCT FEATURES & EXPERIENCES

4.1 Clean Welcome & Single-Button Entry

A minimalist, welcoming arrival screen free of clutter, ads, or geometric distractions. A single prominent "Continue" call-to-action seamlessly guides users into the production studio.

4.2 Party Roster & Custom Avatar Studio

- **Cast Capacity:** Supports 2 to 5 live party players with intuitive name entry and quick-loader presets (Lagos Squad, London Crew, Office Drama, etc.).
- **Custom Avatar Upload:** Players can snap or upload their real photos directly from their phone camera or select authentic genre portraits.
- **Color Identity System:** Each player receives a distinct color signature and badge that highlights their lines across teleprompter views.

4.3 Curated Genres & Atmosphere Engine

SceneSwap provides 8 rich, culturally resonant and globally beloved entertainment genres:

- **Nollywood Drama & High Society:** Extravagant family dynasties, contested inheritances, secret lawyers, and fiery matriarch showdowns.
- **Sci-Fi Survival & Orbital Hazard:** Zero-gravity airlock breaches, rogue station AI, toxic synthetic mist, and emergency space walks.
- **Cyberpunk Heist & Neon Syndicate:** Midnight rain, encrypted neural decks, corporate enforcers, and black market data trades.
- **Murder Mystery & Manor Intrigue:** Private investigators, poisoned champagne, blackmail diaries, and dramatic parlor accusations.
- **Zombie Apocalypse & Road Survival:** Barricaded safehouses, dwindling ammo, bite mark inspections, and desperate evacuation convoys.
- **Romantic Comedy & Wedding Chaos:** Fake engagements, runaway spouses, awkward rehearsal dinner toasts, and secret true confessions.
- **Yoruba Royal Epic & Throne War:** Ancestral crown disputes, imperial warrior oaths, sacred palace drums, and ancient dynasty secrets.
- **Paranormal Horror & Ghost Manor:** Flickering lights, hidden recordings, sealed attic doors, and ancient spiritual awakenings.

4.4 Extended Act Generation & Screenplay Depth

Every act is composed as a full theatrical scene consisting of 14 to 20 spoken dialogue lines. Every player is guaranteed 3 to 4 substantial speaking lines with multi-beat dialogue exchanges, emotional revelations, and dramatic confrontation beats before branching voting.

4.5 Dual Viewing Modes (Studio & Stage)

- **TikTok / Reels Portrait Studio View:** Vertical 9:16 layout designed for social filming. Unobstructed realistic scene background, live speaker highlight, and auto-scrolling dialogue teleprompter.
- **Cinematic Stage View:** Landscape format optimized for casting to living room television screens or projectors for audience viewing.

4.6 Photorealistic Scene Backdrops

Every scene features a newly generated, realistic cinematic photograph aligned with the act's exact setting, lighting conditions, and dramatic mood (35mm film stock, volumetric mist, anamorphic depth of field) without cartoons or illustrative vectors.

4.7 Interactive Party Soundboard & FX Deck

Instant acting reaction audio cues including Vine Boom, Suspense Sting, Record Scratch, Comedic Boing, Thunder Crash, and Crowd Applause to punctuate punchlines and shocking revelations.

4.8 Choice Matrix & Real-Time Group Voting

At the conclusion of each act, the room is presented with 3 distinct branching narrative choices (Option A, Option B, Option C), complete with consequence hints. Group voting determines the direction of the subsequent act.

5. SUBSCRIPTIONS, MONETIZATION & PACKAGING

SceneSwap operates a transparent freemium model combining instant free access for casual parties with comprehensive premium passes for power hosts and professional content creators.

Tier	Pricing Model	Included Capabilities & Perks
Free Host	$0 Forever	Standard 3-Act plays, 2 realistic scene photos per session, TikTok & Screenplay views, st
VIP Director Pass	$4.99/mo or $9.99 Lifetime (N7,500)	5-Act Epic Campaigns, unlimited photorealistic scene photos, custom cinematic styles, VI
Creator Studio Pro	$14.99/mo or $29.99/yr (N28,000)	Everything in VIP Director, plus full 9:16 vertical video & audio export, watermark removal

6. USER EXPERIENCE & DESIGN GUIDELINES

- **Anti-Clutter Discipline:** No decorative geometric vectors or obstructive cards covering the backdrop. The cinematic frame remains clean.
- **Zero-Lag Fallback Guarantee:** If network or offline conditions occur, intelligent local narrative engines seamlessly deliver complete 12-line theatrical scripts.
- **Universal Screen Support:** Flawless responsiveness across smartphones, tablets, laptops, and smart TVs via AirPlay and Chromecast.
- **Accessible Subtitles:** High-contrast typography with colored speaker labels ensure legibility in dimly lit party rooms.

7. SUCCESS METRICS & FUTURE ROADMAP

Key Performance Indicators (KPIs):

- **Session Completion Rate:** Target: >85% of initialized parties complete all three acts.
- **Social Sharing & Virality:** Target: >25% of hosts copy or share final scripts to WhatsApp, TikTok, or Instagram.
- **VIP Conversion Rate:** Target: >6% of repeat party hosts upgrade to the VIP Director Pass.

Upcoming Roadmap Milestones:

- **Phase 1: Multi-Device QR Join:** Friends join room sessions on their own smartphones to vote and read private secret roles.
- **Phase 2: Automated Multi-Voice Dubbing:** Expressive AI voice actors automatically voice each character line for podcast export.
- **Phase 3: Live Streamer Audience Overlay:** Twitch and YouTube chat commands directly vote on Option A, B, or C in real time.
